

Hello Dahlia Addicts!

I'm very excited to offer nearly 100 varieties of dahlias to you this year. I worked hard in the 2022 season to bring you the best, healthiest tubers, free of disease and organically grown. I have made changes to my storage, packing & shipping to create an organized process. I will do my very best to deliver your orders in a smooth process. Since I do not have a website yet and far too many to post online, I have decided to go with a PDF catalogue. Let me know if you have any problems.

A few things to know:

Canadian Orders Only.

Orders to curlygirlgardening@gmail.com

Orders will only be taken by email, in the order which they are received. I will contact you within a day to confirm what you will receive.

A 50% deposit will be required to hold your order, with balance at shipping. Direct deposit o curlygirlgardening@gmail.com or Credit Card (contact by phone to pay by CC)

Please indicate if your order is for pickup or shipping. Please include your contact info & phone number for all orders.

Tubers may be picked up in April & May or will be shipped when weather allows. All shipping will be in Canada Post Flat Rate Boxes ranging from \$20-\$30. You may want to keep that in mind when ordering a small number of tubers.

Although I have a large variety of dahlias, I only grow in small numbers, which means some varieties will only have 1 or 2 tubers.

By partnering with Perennial Petals Flower Farm in Stouffville, Ontario, **I have a large volume of Cafe au Lait, Myrtle's Folly, Lilac Bull, Seduction, Karma Chocolate and Cornel.** Volume discounts will apply to those tubers.

Please note that this is a pre-sale. A 50% deposit is required to secure your order. Your deposit will NOT be returned if YOU cancel your order. The balance of your order plus shipping will be due when order is ready for shipping. At this time all tubers are looking good and I expect no issues. However dahlias being what they are and still some time to go, if any of your tubers have not eyed up or are poor quality, you will be refunded for those.

You may add to your order at any time but not remove, once you have paid your deposit.

Orders for cuttings are also being taken now. More information below..

Locally, dahlia plants grown from tubers & cuttings will be available in May.

Ok, I'm finished talking now! Time to shop!

Thank you for your support.

I am taking orders for cuttings, which will be delivered in May.

This is how I shipped my cuttings in 2022. Dampened paper towel, with plastic wrap, in a tube of newspaper.

This is how they were received, Ontario to Saskatchewan, 4 days later. Customer took photos as she opened the box.

"They arrived in really good shape. The stems & leaves were not broken at all and they were nice & moist. The dirt held together really well and they did not look stressed. I look forward to ordering from you next year." Rachel L.

I am taking orders for cuttings on the following tubers only. (Tubers are sold out)
Pricing same as tubers. These orders will be confirmed in April, since they are not started for a few more weeks.
